June 20, 2020

To whom it may concern,

I am very pleased to offer this letter in support of Missing Children Switzerland and their latest proposal to strengthen and expand the organization's actions and services for missing children in Switzerland.

Missing Children Switzerland became the 30<sup>th</sup> member of the International Centre for Missing & Exploited Children's Global Missing Children Network in 2019. In the same year, they actively participated on our annual conference and shared their experience in developing a national response to missing children. Since then we have been working together for the recovery of missing children globally.

We have been witnesses to Missing Children Switzerland's own personal passion and commitment to our shared goals, but also to the high caliber work of all of their professionals and the very extensive list of tools and services that they have developed in a short period of time. They work directly with Swiss authorities and coordinate national awareness campaigns to create greater awareness on the issue. They also provide support to families who are going through tough times while the child is missing.

We consider Missing Children Switzerland's role essential and vital in the search for missing children in Switzerland and look forward to continued strengthening and supporting of each other's missions.

Yours Sincerely,

**Bob Cunningham**  
Chief Executive Office  
International Centre for Missing & Exploited Children
